

RESCUE DIVER

LEARN TO DEAL WITH A DIVE EMERGENCY

Scuba divers describe the PADI Rescue Diver course as the most challenging, yet most rewarding course they've ever taken.

Why? Because you learn to prevent and manage problems in the water, and become more confident in your skills as a diver, knowing that you can help others if needed.

Rescue Diver Course options at Aquatic Adventures:

- **Standard Rescue Diver Water course (2 days)** - Learn all the skills to effectively rescue your dive buddy, plus we include the PADI Emergency O₂ Provider course for FREE, as the skills learned are complimentary to rescue - **\$599/person***
- **Private Rescue Diver course** - We will build the schedule around you, which allows for much greater flexibility. In addition to the training from our Standard course the Private version also includes extra training in dealing with hazardous marine life injuries & in neurological assessment techniques for decompression sickness, plus a FREE Pocket Mask, usable on course - **\$1,999/course**

RESCUE DIVER

3-Stage Process:

THEORY - PADI's eLearning Online program is designed so that you can learn the academics at your own pace when it is convenient for you.

SKILLS PRACTICE - The first dives of your PADI Rescue Diver course are where you will practice all the skills and techniques used in diver rescues. You will have the opportunity to try out different techniques, and work out what methods work best for you as a rescuer.

SCENARIOS - The second in-water day of your PADI Rescue Diver course is centred around putting what you learned in your Skills Practice sessions into use in the ocean, tackling various scenarios where there are divers who need your help.

Pre-requisites:

- Minimum age to take the PADI Rescue Diver course at Aquatic Adventures is 12years old.
- PADI Advanced Open Water Diver certification (or equivalent) is required to enrol in the Rescue Diver course
- You must hold a current First Aid certificate to enrol in the PADI Rescue Diver course
- Review the PADI Medical Statement and if required, get a Diving Medical to ensure you are safe to dive.
- For the Rescue Diver course, Scuba Equipment hire is not included in the cost of the course, and if needed will be an additional \$90/day. You must have your own personal snorkelling equipment: mask, snorkel, fins, boots, as these items
- A pocket mask, for use in emergencies, is also required equipment for the PADI Rescue Diver course - we sell these in our Rowville store.
